## JAZZ

In giving title to an album, it is extremely important that the thought be conveyed to the ultimate consumer as to the content, in order that he may have an idea as to what he is buying.

In the case of this particular album, it was a very difficult thing to do. How does one go about telling another the fact that he has just recorded one of the most exciting jazz sounds imaginable? Chris Columbo has created a sound that will stamp him as one of the leaders in the jazz field. He has taken several old favorites such as "TEACH ME TONIGHT", "SUMMERTIME", "ALL THE WAY", "WHAT A DIFFERENCE A DAY MAKES", "I LET A SONG GO OUT MY HEART", "MR. WONDERFUL", and others, and has given them a treatment that will make jazz fans and critics sit up and take notice.

Chris Colombo, a native of Atlantic City, New Jersey, has been performing at the HARLEM CLUB at the famed city for many months, and is such a favorite of the patrons that each time his contract comes up for renewal, they find it impossible to let him go. Chris Columbo is truly one of the coming jazz greats.
